WHY I'M EXCITED ABOUT THIS ROLE

My background spans the full B2B marketing funnel in SaaS and tech: from brand positioning and ABM to outbound sequencing, event marketing, and competitor research. I've operated across both strategic and hands-on layers, which is exactly what this role requires.

The challenge of translating deep technical capabilities into compelling narratives for international buyers (US, UK, EU) is one I've navigated before and enjoy.

I pick up new tools, contexts, and market dynamics quickly and once I commit to something, I see it through with full ownership. Dedication, for me, isn't just about effort; it's about caring deeply that the work actually moves the needle.

HOBBIES

Sports and dancing (cycling, gym)

Reading

Oil painting

Growing plants. I plan on creating a monstera-wall in my apartment.

Spending time with Mia, my pooch

Traveling
